Rostyslav Volkov

N o d e . j s   D e v e l o p e r

Energetic and detail-oriented go-getter with a robust background in communications and marketing, now shifting gears into a self-taught developer. Equipped with creativity and problem-solving skills, my goal is to craft captivating web experiences that leave a lasting impact.

SKILLS

Programming languages: JavaScript, TypeScript.

Frameworks: Express, NestJS, NextJS.

Databases: PostgeSQL, MySQL, SQLite, MongoDB.

ORM/ODM: TypeORM, Mongoose.

Testing: Unit, Integration, E2E, Jest, SuperTest.

Tools: Docker.

PROFESSIONAL EXPERIENCE

January 2024 - Present
Avalon Real Estate Agency l Freelance | Remote

FULL-STACK DEVELOPER

- Implemented user interface elements, enhancing user interaction and engagement.
- Executed website translation, ensuring content accessibility in Ukrainian (and English soon).
- Established effective communication with the agency to understand their requirements, providing timely updates on project progress, and ensuring alignment with their expectations.

NON–COMMERCIAL EXPERIENCE

Without formal commercial experience, I've taken the initiative to pursue self-guided learning through well-structured online courses of The Odin Project. At the conclusion of this journey, I've built a portfolio of pet projects, showcasing my proficiency and dedication. You can explore it here:
